

Too Much Debt?
Need a Vacation?
Unexpected Expenses?

FIND HIDDEN CASH IN YOUR PENSION

Did you know you can turn your pension into immediate cash with a lump-sum advance? You can with the experts at **U.S. Pension Funding**.

Our team is the go-to source for pension buyouts. We assist qualified retirees to sell a segment of their pension stream for upfront cash. Quickly get rid of debt or handle an unexpected expense head-on.

U.S. Pension Funding is the lead, if not the only, pension funding source in the cash flow business. Banks do not recognize pensions as collateral. And credit card companies are too expensive. So where do you go to get cash when you need it? Family?

Thousands of retirees already benefit from our service. And you can, too.

Corporate Executives
Emergency Medical Technicians
Federal, State, Municipal Government Employees
Firefighters and Law Enforcement
Military Personnel, All Branches
Nurses and Teachers
Widows or Widowers of Retirees

Find out their story. It could be yours.

U.S. Pension Program Highlights

We purchase from you future cash flow on your pension stream. Then, we pay you an upfront lump sum on that stream. Flow period is typically eight years. You can sell a minimum of \$500 per month or \$6,000 per year in net payments. Although Social Security or Veterans Administration compensation is excluded, you may qualify for a pension advance more easily than imagined. So let's get started.

How to Qualify

Once you request an estimate online, and know what's available to you, simply complete the financial information form we send you, and return by email, fax or mail. Typically, we can qualify you for an approved pension advance when you meet these criteria:

- **Retired status at any age with proof of pension payment statement**
- **Good credit history**
- **Stable rent history or home ownership**
- **Chapter 13 acceptable, if currently discharged**
- **Chapter 7 acceptable, if discharged in last two years**

Generally, your advance takes three to four weeks from the time you apply to receipt of cash.

- **Cash advances are not reported to credit bureaus**
- **Cost of Living Adjustment payments returned to you electronically monthly**
- **No tax consequences, although best to consult your tax specialist**

When all is in place, you will receive an electronic funds transfer to use immediately to meet your goals. Our desire is to create a long and satisfying relationship built on trust and sound financials. That's why pensioners often return to us for a second advance and refer us to family and friends.

If you are managing expenses, yet still face an emergency or situation that demands a fast cash solution, **Pension Income, LLC** is the smart alternative to restrictive banks or credit card companies. Better yet, you'll have a financial advocate for life.
